

ANEESUNISA T.A

aneesunisat@gmail.com | [LinkedIn](#) | [Portfolio](#)

Cloud Engineer | DevOps | Cloud Infrastructure

Bengaluru, India

PROFESSIONAL SUMMARY

Results-driven Cloud & DevOps Postgraduate with practical internship experience working across AWS and Azure environments. Proficient in Kubernetes orchestration, CI/CD, Infrastructure as Code using Terraform, and GitOps-based deployment workflows. Skilled in Python scripting, cloud infrastructure, observability, and application troubleshooting, with hands-on experience building and supporting cloud-native platforms. Seeking opportunities in Cloud Engineering and DevOps.

TECHNICAL SKILLS

Cloud	AWS, AWS EKS, Azure, Azure AKS
DevOps	Kubernetes, Docker, Terraform, GitHub Actions, Argo CD, Helm, GitOps, CI/CD
Observability	Prometheus, Grafana, Loki, Jaeger
Resilience	Istio, mTLS, LitmusChaos, HPA, Cluster Autoscaler
Programming	Python, JavaScript, Bash, SQL
Backend	FastAPI, Flask, Node.js, Express.js, REST APIs
Databases	PostgreSQL, MySQL
Tools	Git, GitHub, Linux, VS Code

INTERNSHIP EXPERIENCE

Cloud DevOps Intern

Apr 2026 – Jun 2026

Quantum Learnings – Microsoft Education Global Training Partner

Remote

- Worked on a multi-cloud Kubernetes platform across AWS EKS and Azure AKS using Terraform and cloud infrastructure automation.
- Built GitOps deployment workflows with Argo CD and implemented observability using Prometheus, Grafana, Loki, and Jaeger.

R&D CoE Intern

Sep 2025 – Dec 2025

Imagine Marketing Ltd. (boAt)

Bengaluru, India

- Developed a Python FastAPI backend for real-time audio streaming using WebSockets, PCM-to-WAV conversion, and PostgreSQL.
- Resolved 3 live production issues and developed Python and Bash automation scripts for development and operational workflows.

Web Development Intern

Mar 2024 – May 2024

BigWelt Infotech

Bengaluru, India

- Worked on responsive web applications and supported testing and debugging activities.

PROJECTS

Zero-Downtime Multi-Cloud Kubernetes Platform

- Built a multi-cloud Kubernetes platform across AWS EKS and Azure AKS using Terraform and Argo CD GitOps.
- Integrated Istio service mesh with Prometheus, Grafana, Loki, and Jaeger for observability.
- Evaluated workload scaling and platform resilience using HPA, Cluster Autoscaler, and LitmusChaos.

QDevOps: Quantum DevOps Pipeline

- Designed a cloud-native DevOps pipeline integrating quantum computing workflows with modern software delivery.
- Explored automated CI/CD workflows for integrating quantum workloads into cloud development environments.

Quick Attendance System

- Developed an attendance system with dynamic QR codes and GPS-based attendance validation.
- Implemented duplicate prevention and OTP-based password recovery, and deployed the application using Gunicorn and Render.

Secure E-Voting System

- Built a secure electronic voting application with OTP-based voter verification.
- Applied AES-256 encryption and SHA-256 hashing to protect sensitive voting data.

EDUCATION

M.Sc. Computer Science – Cloud Computing with Minor in DevOps Yenepoya Institute of Arts, Science, Commerce and Management, Bengaluru	2024 – 2026
B.Sc. (Hons.) Computer Science – Cloud Computing and Big Data REVA University, Bengaluru	2021 – 2024

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals (AZ-900)
Microsoft Certified: Azure AI Fundamentals (AI-900)
Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900)
Microsoft Certified: Azure Data Fundamentals (DP-900)

RESEARCH PUBLICATION

Safeguarding E-Voting in the Quantum Era: A Modular Cloud-Based Security Framework IJIRT	2025
--	------

LEADERSHIP & ACTIVITIES

- **NSS** – Participated in community service initiatives and NSS activities.
- **Data Science Club** – Supported technical activities and a Tableau workshop.
- **Kannada Club** – Contributed to club activities and Karnataka Rajyotsava celebrations.
